

Bowers & Wilkins

A5 Wireless Music System

If you're looking for great wireless audio combined with a discreet, inconspicuous design, the versatile A5 speaker system is an ideal choice. It delivers a remarkably solid and musical acoustic performance, too. A5 comes from Bowers & Wilkins, an audio company with close to five decades of experience creating the kind of loudspeakers that world-leading recording studios such as Abbey Road depend upon.

Listen and you'll see.

Reasons to buy A5

Acoustics

Superb sound A5 illustrates what good design is about – a combination of performance, features and discreet styling. It's a perfect solution for high-quality wireless music anywhere in the house, and thanks to Bowers & Wilkins technology A5 reproduces music with genuine hi-fi quality.

Wireless Music

Apple AirPlay Because A5 utilises AirPlay there's no need for a dock. You can stream music straight from an iPhone or iPod or a computer's iTunes library. AirPlay and A5 means wireless music that simply works – anywhere in house, without tricky setup, without hassle and without fuss.

Advanced acoustics A5 features custom made drive units, new digital amplification, advanced Digital Signal Processing and high-quality Digital-to-Analogue Converters. The result: the kind of spacious sound you'd expect from a much bigger speaker.

Easy setup Apple AirPlay is incredibly easy to set up and use. And it's even easier with the free-to-download Bowers & Wilkins setup app. Plus, if you have a wireless network and an iPhone or iPad you already have almost everything you need to start streaming your music.

AirPlay compatibility

AirPlay works with iPhone, iPod touch and iPad with iOS 4.3.3 or later, Mac with OS X Mountain Lion, or Mac and PC with iTunes 10.2.2 or later.
