

ASW 610

B&W

Bowers & Wilkins

The ASW610 subwoofer presents a very happy medium between the more diminutive ASW608 and the all-out power of the ASW610XP. Its long-throw 250mm driver allows the ASW610 to move the large volumes of air needed for high-quality low-frequency output, and its audiophile-standard 200W Class D amplifier keeps the compact unit running cool, even when the music or movie action is whipping up a storm.

In all of the 600 Series subwoofers, the bass driver diaphragms are constructed from a rugged, finely-tuned mix of paper pulp, Kevlar® fibres and resin, which provides the stiffness needed to withstand the tremendous physical forces exerted by the voice coil and pressures inside the cabinet.

Ultra-solid construction delivers slamming bass, drum kicks, and special movie effects. Deformation is minimised; bass precision, power and enjoyment are maximised.

Description	Active closed-box subwoofer system	Functions:	Input level (line in) Input level (speaker in) Low-pass filter frequency (line in only) Low-pass filter bypass Bass extension Bass roll-off alignment Auto sense on/standby Phase switch
Drive unit	ø250mm (10 in) paper/Kevlar® cone long-throw	Inputs:	Line In (RCA Phono) Speaker in (Binding post) 12v trigger (3.5mm jack) Low-pass filter Active 4th-order, variable cut-off frequency
Frequency range	-6dB at 20Hz and 25/140Hz adjustable (EQ at A)	Dimensions	Height: 310mm (12.2 in) not including feet Width: 310mm (12.2 in) Depth: 375mm (14.8 in) including grille and controls
Frequency response	±3dB 27Hz – 40/140Hz adjustable (EQ at A)	Net weight	12.5kg (27.6 lb)
Base Extension	-6dB at 20Hz (position A) -6dB at 25Hz (position B) -6dB at 30Hz (position C)	Finishes	Soft Touch Black
Amplifier			
Power Output	200W		
Rated power consumption:	40W / 0.5W standby		
Input impedance:	33kΩ		
Signal / noise:	>90dB
