

# ASW 750

**B&W**  
Bowers & Wilkins

The ASW750 is technically similar in concept to the ASW700, but offers higher output and deeper bass due to its larger driver, higher power amplifier and larger cabinet. The 300mm (12 in) driver can move large volumes of air with exquisite control for accurate low-frequency output. The powerful 1000W amplifier, coupled with the larger driver provides a maximum output level over 4dB higher than the smaller ASW700. The cabinet is extensively braced and available in the same real wood veneers as the rest of the 700 Series.

<i>Description:</i>	Active closed-box subwoofer system	<i>Amplifier power output:</i>	1000W continuous
<i>Frequency range (-6dB):</i>	15Hz and 40/140Hz	<i>Dimension: (not including feet)</i>	H 437mm W 396mm D 479mm H 17.2" W 15.6" D 18.9"
<i>Frequency response (±3dB):</i>	20Hz and 31/110Hz	<i>Weight:</i>	32 kg / 70 lbs.
