

# CC™3

## Magnetically shielded centre channel loudspeaker system

### Product Summary

- The CC 3 is a dedicated centre channel monitor specifically designed to deliver clear and uncoloured dialogue. The elegant, low profile cabinet is as unobtrusive as possible for neat positioning above or below the screen, and is magnetically shielded to prevent possible picture distortion.
- The speaker has two 4-in doped paper cones which improves bass speed and impact. The high sensitivity ensures compatibility with a wide range of systems and the covered high-frequency dome surround minimises output interference for pure undistorted treble sound. The Nitrile rubber surrounds ensure accurate bass and dialogue reproduction. All the points mentioned above culminates in outstanding performance which is an essential component for any budget Home Cinema setup.

### Technical highlights

Wedge Panel Diffusor: A novel solution to the problem of coloration from resonances inside small cabinets.

<b>Description</b>	2-way vented-box system	<b>Power handling</b>	25W - 100W into 8 ohm on unclipped programme
<b>Drive units</b>	1 x 25mm soft dome high-frequency 2 x 100mm Homogeneous fibre bass/mid	<b>Dimensions</b>	Height: 135mm Width: 400mm Depth: 210mm
<b>Frequency response</b>	80Hz - 20kHz ± 3dB on reference axis	<b>Finishes</b>	Cabinet: Black Ash vinyl Grilles: Black cloth
<b>Sensitivity</b>	91dB spl (2.83V, 1m)		
<b>Nominal impedance</b>	8 (min 4.1 )
