

# DM5

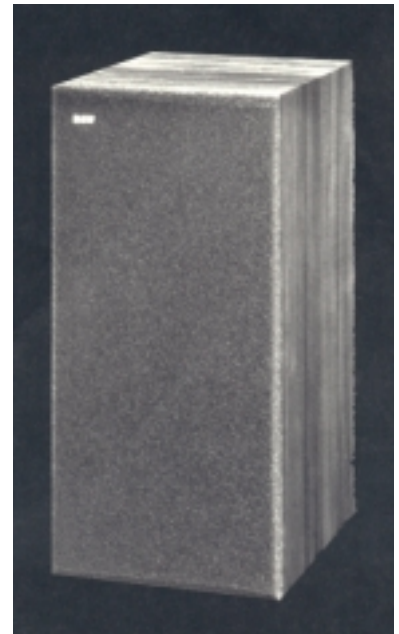

## Stand-mount/Bookshelf loudspeaker system

### Product Summary

- The DM5 is the successor to the D5 which in recent years has earned a worldwide reputation for out-performing many loudspeaker systems.
- The DM5 has extremely low system resonance and 'Q' typically a system resonance of some 53Hz and a "Q" of 0.7 - figures that would do credit to loudspeakers four times its size.

### Technical highlights

- The bass/midrange unit has been redesigned using new suspension materials, and by a small increase in the enclosure volume of the D5.
- The improvements are of vital importance in the useful extension of low frequency performance and allowing the unit to be tightly coupled in a room by wall mounting or by fitting in a bookshelf.

<b>Drive Units</b>	1 x TW20 high frequency unit voice coil diameter 19mm 1 x 140mm bass/midrange unit; voice coil diameter 26mm	<b>Nominal Impedance</b>	8 ohms
<b>Frequency Response</b>	100Hz - 20kHz. $\pm$ 5dB,	<b>Power Handling</b>	10W - 25W
<b>Sensitivity</b>	6.8 watts into nominal impedance (i.e. 7.4 volts) for a sound pressure of 95dB pink	<b>Dimensions</b>	Height: 455mm Width: 227mm Depth: 241mm
		<b>Finish</b>	Standard: leak or walnut Special: satin white or selected veneers of walnut, leak or rosewood
