

DM600 S3

B&W
Bowers & Wilkins

The DM600 S3 is a small speaker designed for mounting directly on-wall, but stand or shelf mounting is also possible. Its primary use is as an unobtrusive surround speaker, but it may be used in other applications where small size is important.

The DM600 S3 comes complete with a simple wall-mounting bracket that spaces it sufficiently from the wall for cable access and to allow the rearfiring Flowport to operate effectively.
