

DM™ 601 S2

Stand-mount/Bookshelf loudspeaker system

Product Summary

- The DM601 S2 was voted product of the year 1999 by What Hi-Fi magazine. B&W's waterfall design philosophy ensures the DM601 S2 uses cutting edge technology and components which all lead to making it an award winning speaker.
- The speaker incorporates Nautilus™ technology; producing an amazingly open and detailed sound. The front baffle is of double layer construction with a low-resonance reinforced plastic outer skin attached to the wooden panel behind.

Technical highlights

Nautilus™ Tweeter: B&W's Nautilus Tweeter technology ensures that the sound remains focused and time-sensitive and that the stereo-image is presented with unparalleled three dimensional accuracy.

Kevlar®: B&W developed and patented the method of using Kevlar® for loudspeaker cones to reduce unwanted standing waves. DuPont originally created Kevlar® for use in bulletproof vests.

Description	2-way vented-box system	Power handling	25W - 100W into 8 ohm on unclipped programme
Drive units	1 x 25mm metal dome high-frequency 1 x 165mm woven Kevlar® cone bass/midrange	Dimensions	Height: 356mm Width: 204mm Depth: 244mm
Frequency response	70Hz - 20kHz ± 3dB on reference axis	Finishes	Cabinet: Cherry or Black Ash vinyl Grilles: Black cloth
Sensitivity	88dB spl (2.83V, 1m)		
Nominal impedance	8 (min 4.3)		

Awarded What HiFi's prestigious five stars. July 1999.

What HiFi Supertest winner, 1999.

What Hi-Fi magazine's Loudspeaker of the Year in its 1999 awards.
