

201i

Stand-mount/Bookshelf loudspeaker system

Product Summary

- The 200 series was deemed as the rarity in the mass consumer hi-fi market – a reasonably priced loudspeaker that provided high sensitivity, extended linear frequency response and pinpoint stereo imaging.
- The 201i is a 2-way vented box loudspeaker system. The speaker comprises of a 1 in high frequency unit with polyester dome and one 6-in low/mid frequency composite fibre cone.
- The B&W wall bracket accessory permits easy, multi-directional positioning on walls.

Technical highlights

- The Design incorporates a cabinet profile and wedge shaped grilles on acoustically transparent frames.
- The magnetic fluid-cooled voice coils are a B&W hallmark, wound on glass reinforced Kapton® formers, enabling the drivers to take the heat when reproducing modern digital recordings.
- In common with all B&W tweeters, the lightweight units incorporate low viscosity magnetic fluids to offer excellent power handling and linearity.

Drive Units	1 x 25mm high-frequency with polyester dome 1 x 165mm low frequency with composite short fibre cone	Power Handling	Suitable for amplifiers up to 100W continuous
Frequency Response	66Hz – 20kHz ± 3dB on reference axis	Dimensions	Height: 360mm Width: 225mm Depth: 181mm
Sensitivity	90dB spl(2.83V 1m)	Finish	Black ash vinyl
Nominal Impedance	4 ohms
