

Description

The RA-1520 is a music lover's amplifier and is most at home as part of a stand-alone stereo system. Its muscular 2 x 60 watt (into 8 ohms) design is based upon nearly 50 years of our expertise in analog audio engineering and it delivers all of the musical performance the artist intended. Subtle nuances and large dynamics are both rendered faithfully from uncompressed digital or analog sources. The RA-1520 includes a moving magnet phono input to accommodate your vinyl collection. To complete its functionality, as well as its superb performance capabilities, there are additional inputs for tuner, tape, CD and Aux.

Specifications

Power Configurations	2 x 60 watts (20Hz-20kHz, <0.03%, 8 Ohms)	Phono Overload (MM)	170mV
THD (20-20,000Hz) 8 Ohms, all channels driven	< 0.03%	Preamp Output Levels / Output Impedance	1V / 470 Ohms
IM Distortion	< 0.03%	S/N Ratio (IHF A)	>95dB
Phono Input	20Hz-15kHz, +/- 0.2dB	Power Requirements USA	115 Volts, 60Hz
Line Level Input	10Hz-100kHz, +1, -3dB	Power Requirements CE	230 Volts, 50Hz
Damping Factor (8 Ohms)	150	Power Consumption	300 watts
Line Input Sensitivity	160mV / 24kOhms	Dimensions (W x H x D) mm	432 x 92 x 364 mm
Bass	+3, +4dB at 100Hz	Dimensions (W x H x D) in	17 1/8 x 3 5/8 x 13 5/16 in
Treble	+ 3dB at 10kHz	Front Panel Height	80 mm / 3 3/16 in
Line Input Overload	5V	Weight (net)	7.8 kg, 17.2 lbs
Phono (MM)	2.4mV / 47kOhms
