

2001

Stand-mount/Bookshelf loudspeaker system

Product Summary

- The baby of the bunch at just 11 inches high and with a volume of 6.8 litres, the 2001 is an ideal monitor for the first time purchaser.
- Shelf or wall mounted with a forth-order, rear vented box, this loudspeaker will enable any domestic hi-fi system to deliver excellent sound reproduction across all spectrums of music, without the need to invest in a large amplifier.

Technical highlights

- As the name of the 2000 Series suggests, these loudspeakers have been designed to meet the needs of the consumer between now and the 21st Century.
- Affordable, high performance audio/video loudspeakers with ZMF (Zero Magnetic Field)
- Contoured front baffle to overcome diffraction
- Acoustically transparent frameless grilles with specially developed low coloration drive units.

Also produced in a magnetically shielded version 2001 ZMF
