

# ASW300

**B&W**  
Bowers & Wilkins

Specifically designed to complement the 300 Series the compact active ASW300 adds the weight and power required to reproduce the special low-frequency effects of movies and the lowest octaves of music. The ASW300 features a 200mm driver with an extremely rigid cone designed to withstand the large forces generated by dynamic bass signals. Its output is reinforced by Flowport, B&W's familiar dimpled design that reduces turbulence noise to negligible levels.

*Description:* Active vented-box subwoofer system

*Frequency range (-6dB):* 23Hz and 180Hz

*Frequency response(±3dB):* 27Hz and 150Hz

*Amplifier power output:* 100W continuous

*Dimension: (including feet)* H 405mm W 330mm D 375mm  
H 16" W 13" D 14.8"

*Weight:* 15kg / 33 lbs.
