

DM600i

Stand-mount/Bookshelf loudspeaker system

Product Summary

- Designed with the more demanding digital sources of the nineties in mind, the 600 series has earned a reputation for minimal coloration and musical accuracy in audio reproduction. Successfully capturing the transients found in music meant developing a loudspeaker able to do justice to the attack of the original audio signal.
Designed by a master of industrial design Dr Kenneth Grange, the cool, dark lines of the 600 series cabinet are perfect partner for contemporary furniture and interior design settings.
- The baby of the series, but with a grown-up impact. The 1-in metal dome tweeter and 6.5in mid/bass unit are flush-mounted into a rigid moulded baffle, stylish as well as functional.
- The drive units are capable of efficiently handling high power and four terminals are provided for bi-wiring or bi-amplification

Technical highlights

- B&W's Tweeter technology ensures that the sound remains focused and time sensitive and that the stereo image is presented with unparalleled three dimensional accuracy.
- The strict acoustic requirements of the cabinet have dictated a front baffle moulding of extra high rigidity. The polymer has been chosen for its composition and ability to reduce unwanted resonances to a minimum.

Description	2-way 2nd-order closed-box digital monitor system with bi-wiring	Frequency Response	80Hz – 20kHz ± 2dB on reference axis
Drive Units	1 x 26mm high frequency with metal dome, high-temperature voice coil magnetic fluid cooling 1 x 165mm bass/midrange with reinforced polypropylene diaphragm and 25mm high temperature voice coil on Kapton® former	Sensitivity	87dB spl(2.83V 1m)
		Nominal Impedance	4 ohms
		Power Handling	30W – 100W into 4 ohms on unclipped programme
		Dimensions	Height: 352mm Width: 204mm Depth: 243mm
		Finish	Black Zelda
