

Bowers & Wilkins

Air your tunes

Zeppelin Air Zeppelin is back, and it's better than ever. Apple's AirPlay® technology allows music to be streamed wirelessly from your Mac or PC to Zeppelin Air. You can even bypass the computer entirely, and stream high-quality audio directly from your iPhone®, iPad®, or iPod touch®. All without the need to dock the device. If you have more than one Zeppelin Air, you can use them in a simple to set up multiroom system. **Listen and you'll see.**

Overview

Zeppelin Air is the ultimate AirPlay wireless speaker system. Plus it is the first premium iPod speaker to feature the new Apple AirPlay wireless streaming technology.

Its fully active 2.1 design means that all five units are individually driven by dedicated audiophile class D amplifiers, which were specially designed for Bowers & Wilkins. The improved 4x25 Watts + 1x50 Watts output powers improved drive units, many of which are smaller for improved dispersion. The addition of Bowers & Wilkins Flowport® technology and advanced Digital Signal Processing has dramatically improved the bass performance. The DACs have also been upgraded, with new 24bit/96KHz capability for improved performance.

Apple's AirPlay technology allows music to be streamed wirelessly from your Mac or PC to Zeppelin Air. You can even bypass the computer entirely, and stream high-quality audio directly from your iPhone®, iPad® or iPod touch®. All without the need to dock the device. If you have more than one Zeppelin Air, you can use them in an elegant multiroom system.

Specifications

Description	Speaker system for iPod/iPhone	
Features	Apple AirPlay technology Universal docking port Digital Signal Processing (DSP) Digital amplifier	Switch mode power supply USB streaming from PC/Mac iPod/iTunes sync Flowport Remote control
Drive units	2x 1" Nautilus tube aluminium tweeter 2x 3" Midrange 1x 5" Subwoofer	
Frequency range (-6dB)	36Hz and 42kHz	
Amplifier power output	2x 25W (tweeter) 2x 25W (midrange) 1x 50W (subwoofer)	
Power input Voltage	100V – 240V ~ 50/60Hz	
Rated power consumption	100W	
Standby power consumption	0.8W	
Inputs	iPod/iPhone (30-pin connector) Network (RJ45 Ethernet or Wi-Fi) Auxiliary – analogue/optical digital (3.5mm mini jack) Streaming, synchronization & firmware upgrades (USB 2.0)	
Outputs	Composite Video (RCA Phono)	
Dimensions H x W x D	6.8" x 25.2" x 8.2"	
Net Weight	13.5lb	
Finish	Gloss black with stainless steel trim / Grille: Black cloth	

Meet the family

P5 The P5 Mobile Hi-Fi headphones deliver remarkable natural and detailed sound on the move. They feature a leather and metal build, for a luxurious comfortable fit that makes longer listening sessions a pleasure.

MM-1 MM-1s aren't like other computer speakers. They're true hi-fi speakers, shrunk to fit on your desktop. So they don't just look great – they sound amazing, transforming your computer into a superb hi-fi stereo sound system.
