

## Zeppelin Mini from Bowers & Wilkins

### Small sounds beautiful

We've done it again. It wasn't long ago that Zeppelin revolutionized the way we listen to our iPods, sweeping away the competition and scooping just about every award going for its incredible sound and sleek looks. And now it's back. Only this time, it's smaller.

With Zeppelin Mini, you get everything you love about Zeppelin – advanced acoustic technology, intelligent design, elegant connectivity – in a streamlined, compact sound dock package that's perfect for desktops and bedside tables. Because even when your space is limited, it doesn't mean your sound has to be.

### Specifications
